XML – I

Create an xml file to display its use and structure.

OUTPUT:

A screenshot of a web browser window. The address bar shows the file path 'C:\Users\SUERCOMPUTER\Documents\x.xml'. The browser's search bar is active, and the main content area displays an XML document. The XML is formatted with color-coding: opening and closing tags are in blue, attribute values are in red, and text content is in black. The document structure is as follows:

```
<?xml version="1.0" encoding="UTF-8"?>
